Alaska is the largest state in the United States, and was sold for a total of \$7.2 million, which amounts to about 2 cents per acre. The state was purchased from Russia in 1867. In the 50 years that followed, America made their money back for the \$7.2 million more than 100 times over.

1919 was the celebration of the first Cheese Days put on by members of the Cowlitz Valley Cheese Association. These dairyman joined together to market their cheese and in June met to pass out the first checks from cheese sales. They had a little get together and all had such a good time that they decided to make it an annual event and to invite local citizens. Cheese sandwiches were served at the first Cheese Days and they are still served (free of charge) at the Presbyterian Church during the annual Cheese Days celebrations.

I think it's just vapor. It won't
hurt my kid like cigarettes, right?

The vapor that's inhaled from
e-cigarettes contains harmful
chemicals that can cause
irreversible lung damage.

And e-cigarettes have nicotine,
a toxin that's addictive and can
change your kid's brain.
Those are the facts.

Talk to your kid about vaping.
